

LONELY BIRD

Visualising Loneliness through Public Health Funeral Data

Data provided by Leeds City Council for #NHTG14 hosted by Leeds Data Mill

Loneliness is a real issue. This infographic shows you the number of deaths and total funeral costs that have been paid for by the council per postcode.

These are people who have been forgotten or without family, people with families that can't afford their funerals or won't provide for them, people like you and me.

And these are just people who have died in Leeds between 2012 and 2013.

What about other places and the other years? What about tomorrow?
